

Version 2.0 Upgrades – Release Notes

1. **Back by Popular Demand!** Contact Method Selection

When creating a message, users again have the ability to select or deselect the different contact methods they wish to send the message to.

Send New Message

The screenshot shows a 'Send New Message' form with the following elements:

- Message Details:** List (All Contacts), Send Date (08/17/2015 03:11 pm), Category (Emergency Alert).
- Message Fields:** Message Name, Message Subject, and an 'Insert Merge Field' dropdown.
- Message Content:** A text area with the placeholder 'What Should The Message Say?'.
- Contact Method Selection:**
 - Voice:** 17375 Total. Includes checkboxes for Home Phone Number: 47, Mother's Day Phone: 9, Father's Day Phone: 17317, and Staff Cell Phone: 2.
 - Sms:** 17328 Total. Includes checkboxes for Mother's Day Phone: 9, Father's Day Phone: 17317, and Staff Cell Phone: 2.
 - Email:** 64 Total. Includes checkboxes for Mother's Email: 48, Father's Email: 12, and EMail Address: 4.
- Buttons:** 'Edit' buttons for each method and a 'Send Message' button.

2. Removing Subscribers

Users now have a way to remove subscribers they no longer wish to send messages to from their contact lists.

	StudentID	First Name	Last Name
 		Christopher	Aldene
 		Deborah	Davis

3. Extension Tables Added to Custom Fields Screen

Users can add table extension names directly to their imports.
